

TOM: "I MAKE YOUR DAY!"

TOM IS NOT A CONVENTIONAL WASTE BIN. He is just under 5' tall, smart, dutiful, quiet, a clean freak and compacts, accepting up to 7 times more waste before the bag is full! Furthermore, TOM is a social creature, loves crowds and politely opens its shutter automatically when approached. The touch-free operation is an important hygienic feature. No more overflowing waste bins! TOM keeps your place clean and saves your staff valuable time during rush hours.
