

ORWAK

MULTI 5070-HDC

MULTI

THIS MULTI-CHAMBER BALER provides sorting and compaction of different types of materials in one machine! The ORWAK MULTI 5070-HDC, the heavy-duty version of the standard 5070, is robust and versatile and offers cross-binding of the bales.

Orwak benefits

MORE PRODUCTIVE USE OF TIME

Less time spent on waste handling, more time for your core activities!

MORE SPACE & ORDER

Our balers rapidly minimizes the space the waste takes up, keeping aisles free and tidy.

LESS COSTS, MORE VALUE

More compaction = less waste volume to transport. Fewer transports required results in lower transportation costs and reduced CO₂ emissions. Sorting at source yields a higher quality of waste material for recycling.

Why Orwak Multi?

- + Sorting and compaction of several waste types at source
- + Top-loading of the material in open chambers
- + Total freedom to increase capacity by adding additional chambers

ORWAK

MULTI 5070-HDC

Unique multiple-strap option

The 5070-HDC is a more powerful version of the standard model 5070 and provides volume reduction of up to 10:1. The HDC-version takes on the really tough jobs and compacts PET bottles, jugs and even light wood packaging.

We are unique in offering cross-strapping on a multichamber baler. The bales are secured under pressure with 2-6 straps depending on the material and handling requirements for the finished bales.

Multiple strap choice to meet both the demands of the material and tough handling requirements.

ORWAK MULTI 5070-HDC IS OPTIMIZED FOR:

PAPER

- + Paper sacks
- + Cardboard
- + Shredded paper

PLASTIC FOIL

- + Shrink film
- + Plastic bags

METAL CANS

- + Food cans
- + Paint cans

PLASTIC CONTAINERS

- + Pet bottles
- + Jugs/bottles

OTHER METALS

- + Steel straps

OTHER PLASTICS

- + Plastic straps

EFFECTIVE COMPACTION

Long piston stroke produces highly compacted bales!

MULTI-CHAMBER SOLUTION

This is a multiple-chamber solution. It forms a mini recycling point for the sorting of different types of material.

EXTENDABLE SYSTEM

Add an additional chamber to extend your sorting and compaction station!

EFFICIENCY

Whilst the baler compacts the material in one chamber, the other is open and ready to be fed with more material!

BALE TROLLEY

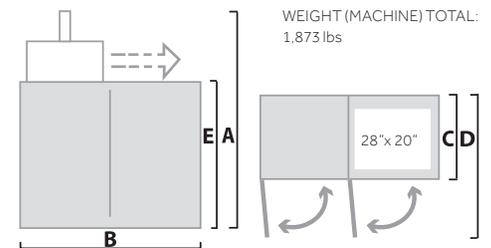

The baler is always delivered with a trolley for easy baling and internal transportation of the bale.

DIMENSIONS & SPECIFICATIONS

DIMENSIONS
