KUHINJE ERJAVEC

SLOVENIA

BALER IN THE PRESENT, KITCHENS FOR THE FUTURE

Kuhinje Erjavec is a renowned furniture manufacturer in Slovenia. Over the past 50 years, this family business has built a strong brand and become synonymous with high-quality, custom-made furniture.

A COMPACT ORWAK BALER INSTALLED IN THE MIDDLE OF THE FURNITURE WORKSHOP TRANSFORMS PACKAGING WASTE INTO NEAT BALES.

Turning a house into a home

The primary goal is to produce sophisticated premium furniture for kitchens and other rooms. Adding a personal touch and supplying customized furniture and interior design, the motto is "Turning a house into a home". Kuhinje Erjavec follows the trends and carefully considers the customers' needs.

The company offers a complete solution, including planning, consulting, manufacturing and installation, all in one place, and also provides household appliances from various manufacturers.

Paper compaction in furniture factory

The skilled furniture maker team manufactures the furniture in the factory in Ljubljana. Goods deliveries result in cardboard and paper packaging waste that needs to be dealt with properly and effectively. The compact Orwak baler 3110 now resides at a central location in the middle of the workshop. Interzero, Orwak's representative in Slovenia, recommended and installed this compaction equipment.

The baler is easy to use and being close to the source of waste, no time is lost walking to bins or containers in the backyard.

Significant volume reduction

Collecting the packaging waste directly in the baler keeps the floor free from clutter. The neat and light bales are effortlessly removed by a trolley, which was delivered with the baler. Thanks to the compaction ratio, there is less packaging waste to transport, which saves costs. Team Kuhinje Erjavec is happy with the new waste solution:

"We are very satisfied with the Orwak Compact 3110. It significantly reduces the volume of cardboard and paper packaging. It's very easy to use and maintain. Purchasing the baler has proven to be an excellent decision and a great investment."
